DETAILED ACTION

1. The office acknowledges the receipt of the following and placed of record in the file:

Amendment dated 2/11/05

Allowable Subject Matter

2. Claims 1-26 are allowed.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

Applicant's arguments with respect to Pohlman et al, U.S. Patent 6,819,537 not being a valid reference is not persuasive. First, the rejection in Office Action was made with reference to Pohlman et al., 6,819,537 ('537) as correctly assumed by the applicants. The '537 patent has priority to a provisional application 60/277,839 which has filed date of March 22, 2001, which would have a file date previous to the applicant's file date of November 24, 2001. It is believed that provisional application 60/277,839 shows subject matter that was used in the rejection 102(e) rejections. A copy of the provisional application is provided for applicant's convenience.

However, applicant's arguments with respect to the limitation of a plurality of return connection terminals connected to the first output, which is not disclosed by Pohlman et al., are persuasive

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

EXAMINER'S AMENDMENT

The application has been amended as follows:

Pursuant to MPEP 606.01, the title has been changed to read:

-- METHOD AND APPARATUS FOR SUPPLYING POWER TO A CIRCUIT USING A VOLTAGE SOURCE WITH POWER CONNECTION TERMINALS AND RETURN CONNECTION TERMINAL THAT ARE CONNECTED TO A CIRCUIT OUTPUT --
